Art Dealer + Active Artist (15+)

Dear Reader,

Early Life 🧒

They say the day you are born and the day you find the reason why are the two most important experiences in life. Well on October 6th of 94 in Brooklyn NY an artist was born. From a young age as I realized I was fairly good at drawing and creating things from imagination. I got in trouble for drawing all through my school years.

Early Challenges 😞

Responsibility was placed on me at an early age. I gained a lot of structure but my curious nature needed to fill a void on fun things I missed out on as a child. **My dad taught me education was essential to be great in life. My mom taught me to work hard and be on time as well.**

About The Artist 🧠

I'm a multi-disciplinary artist with special concepts! Meaning **I focus on the idea and execution of art projects.** I value exercise, and nutrition. On a daily basis i like to think about creative projects involving; SimplyDope aesthetics, innovation, and practical balance techniques.
